for a sustainable future

# Thessaloniki Sustainability Summit 2022

## "Sustainable Energy"

September 14th, 2022, Thessaloniki, Greece

The 2022 "Thessaloniki Sustainability Summit" aims to bring together scientists, local authorities, politicians, entrepreneurs, and other stakeholders to discuss a topic of global interest, sustainable energy. The international character of the annual Thessaloniki Fair provides an excellent opportunity for bringing together experts from all over the world.

The topic of the summit "**Sustainable Energy**" is in accordance with the Agenda 2030 and the United Nations' Sustainable Development Goals (UN SDGs) as well as the European Green Deal. The 2022 "Thessaloniki Sustainability Summit" will comprise a series of round-table discussions focusing on subjects of interest.

The participation of scientists, government officials and other stakeholders from various countries, promises high-level panels expected to lead to interesting conclusions and outcomes.

The 2022 "Thessaloniki Sustainability Summit" consists of 2 sessions, 1 in Greek and 1 in English, both accessible online via **Zoom**.

The session in Greek will be hosted in the **Audimax of the Faculty of Engineering at the Aristotle University of Thessaloniki**.

The session in English will be hosted on the premises of the Thessaloniki **Helexpo Forum, "I. VELLIDIS" - Hall 3**.
